BEFORE YOU START

Lay everything on a soft, clean surface.

Keep screws and small parts in a bowl.

Use a Phillips screwdriver.

Do not fully tighten until the final step.

PRO TIP

Check that everything is square before tightening all screws.

WATCH OUT

Make sure each panel is fully seated in the slots and boards are flat.

WARNING:

CHOKING HAZARD — Small parts not for children under 3 years or any individuals who have a tendency to place inedible objects in their mouths.
