LIVING

Etaara Living creates thoughtfully designed furniture that grows with children and the way they live. Every piece balances comfort, function, and longevity, supporting movement, learning, play, and rest through changing stages of childhood.

It's furniture made not just for kids, but for the lives they're constantly growing into.

The Moon Chair

Every child deserves a space of their own. The Moon Chair is a cozy spot for reading, playing, or unwinding. Designed with Montessori principles, its low height helps kids climb in independently, building confidence. High-density foam ensures comfort, while soft fabric and timeless colours blend into any home. It quickly becomes their favourite place, simply because it feels like theirs.
